About

I am Mursleen Bukhari, a Full Stack Developer from Pakistan. I work with the MERN stack to build modern, responsive websites and apps. I'm also learning AI and Machine Learning to add smart features to my projects. I enjoy creating useful tools like SaaS apps and 3D portfolios. I'm always learning and love building cool things with tech.

Experience

Internship

2k22/ july - 2k22/dec

Web Development - AAM TECHHUB , Multan

- Assisted in building company dashboard in React.
- Fixed UI bugs and improved mobile responsiveness.
- Worked with backend APIs and learned Git collaboration

Projects

Content Genius (AI SaaS App)

A full-stack SaaS platform that suggests trending content ideas in real-time and auto-generates posts. Used MERN stack, Clerk auth, and modern UI.

Mind2Vision – AI Text-to-Image Generator

An AI-powered app that turns user prompts into stunning images using advanced text-to-image models. Built with React, Node.js, and CLIPDrop API.

AthletIQ – AI Personal Trainer

An AI-based fitness app that gives custom workout plans and tracks progress. Integrated Stripe for payments and used Framer Motion for UI.
