About

I am Mursleen Bukhari, a full Stack Developer from Pakistan. I work with the MERN stack to build modern, responsive websites and apps. I'm also learning AI and Machine Learning to add smart features to my projects. I enjoy creating useful tools like SaaS apps and 3D portfolios. I'm always learning and love building cool things with tech.

Core Subjects Studied During Graduation

Web Technologies	Database Systems
Operating System	Design & Analysis Of Algorithm
Computer Graphics	Computer Network
Professional Practices	OOP

Experience

Internship   **2k22/ july - 2k22/dec**

Web Development - AAM TECHHUB , Multan

- Assisted in building company dashboard in React.
- Enhanced UI responsiveness and resolved cross-device compatibility issues using React and CSS.
- Worked with backend APIs and learned Git collaboration.

Projects

Content Genius (AI SaaS App)

A full-stack SaaS platform that suggests trending content ideas in real-time and auto-generates posts. Used MERN stack, Clerk auth, and modern UI.

https://github.com/Mursleen-2004/FYP_Frontend (Working)

Mind2Vision – AI Text-to-Image Generator

An AI-powered app that turns user prompts into stunning images using advanced text-to-image models. Built with React, Node.js, and CLIPDrop API.

https://github.com/Mursleen-2004/AI-Powered-Text-To-image-Genrator

AthletIQ – AI Personal Trainer

An AI-based fitness app that gives custom workout plans and tracks progress. Integrated Stripe for payments and used Framer Motion for UI.

https://github.com/Mursleen-2004/AtheletIQ-Personal-Trainer

https://athelet-iq-personal-trainer.vercel.app/

AI Powered Career Counselor (SaaS)

MentorMind is an AI-powered career counselor that guides users toward the best career paths based on their goals and skills. It generates personalized learning roadmaps using real-time data and intelligent analysis.

https://github.com/Mursleen-2004/AI-Powered-Career-Counselor--SaaS-

AI Powered Resume And Cover Letter Builder (SaaS)

ResumeAI is an AI-powered tool that creates professional, tailored resumes and cover letters based on your profile and job role. It ensures optimized formatting, impactful wording, and industry-specific customization in seconds.

Real Estate Website with React

I built a modern real estate website using React that showcases property listings with images, pricing, and detailed information. It features dynamic filtering, responsive design, and smooth navigation for an excellent user experience.
