Address
MA Jinnah Road, Multan

Education

Bachelor of Computer Science
NFC IET University
2021 - 2025

Intermediate
FG Degree college
2019 - 2021

Skills

- JAVASCRIPT
- TYPESCRIPT
- REACT JS
- NEXT JS
- NODE JS
- GRAPHQL
- EXPRESS
- PYTHON

Language

- URDU
- ENGLISH

Professional Experience

2024 - NOW

Full Stack Developer

Fistix It Solutions, Multan

- Built and deployed modern web applications using MERN stack, TypeScript, Next.js, GraphQL, and PrismaORM.
- Designed and developed RESTful and GraphQL APIs with Node.js, Express, and JRPC, improving backend efficiency.
- Created responsive, user-friendly interfaces with React and Next.js, improving user experience and engagement.
- Collaborated with cross-functional teams to deliver scalable solutions, ensuring performance, security, and maintainability.

2022 - 2023

Full Stack Developer

AAM Techub, Bussiness plaza, Multan

- Developed interactive and responsive user interfaces with React and Next.js, improving usability and customer engagement.
- Implemented state management and reusable components to streamline development and reduce code duplication.
- Optimized frontend performance, reducing load times and improving overall application speed.
- Integrated RESTful and GraphQL APIs with React, ensuring seamless communication between frontend and backend.
- Collaborated with designers and backend teams to deliver pixel-perfect, user-friendly web applications.
- Leveraged TypeScript and modern React features (Hooks, Context API) to build scalable and maintainable codebases.

Certificates

- META Frontend Developer
- Advance React
- Programming in JS
- Python for Everybody
- Machine Learning

Projects

AI Powered Text to Image Tool

Web application using MERN stack + OpenAI API to generate images from text prompts. Integrated Stripe payment gateway to manage user credits and purchases. Designed a modern, responsive UI with React and TailwindCSS for a smooth user experience.

https://github.com/Mursleen-2004/AI-Powered-Text-To-image-Genrator

AI Powered Content Suggestion and Post Builder

Content Genius (Final Year Project) - Developed an AI-powered content suggestion platform using the MERN stack and OpenAI API. Implemented real-time trend analysis to recommend top-performing topics and generate engaging posts automatically. Designed a responsive frontend with React and TailwindCSS and built scalable APIs with Node.js and Express. Integrated Clerk authentication for secure user access and personalized recommendations.

https://github.com/Mursleen-2004/Content_Genius_Fyp

AI Powered Quiz Generator

Developed an AI-driven quiz tool using React, TailwindCSS, and OpenAI API to create quizzes from user prompts. Designed a responsive, animated UI with Framer Motion for an engaging experience. Added analytics dashboards with Recharts to track performance and insights.

https://github.com/Mursleen-2004/PromptIQ---AI-Powered-Quiz-Generator

AI Powered Resume and Cover Letter Builder

Developed an AI-powered resume and cover letter builder using the MERN stack and OpenAI API. Enabled users to generate professional, tailored resumes and cover letters from simple prompts. Integrated secure authentication and data storage with Node.js, Express, and MongoDB. Designed a modern, responsive interface with React and TailwindCSS for a smooth user experience.
